Summary

Final-year IT (Software Development) student at Monash University with experience in full-stack development, teaching, and leading tech teams. Previously, co-led an 80+ member student technology team delivering industry-facing projects in emerging technologies. Built web applications using React, Node.js, and TypeScript, with strong interest in software development. [View on portfolio..](#)

Skills

Languages	Python, Java, JavaScript, TypeScript, SQL, C++, PHP
Frontend	React, Angular, HTML, CSS, Tailwind CSS
Backend	Node.js, Express.js, REST APIs
Databases	MongoDB, NoSQL
Game Development	C++, Unreal Engine
3D Modelling	Autodesk Maya
Tools	Git, GitHub, Postman, VS Code, IntelliJ IDEA, Android Studio
Other	Figma, UI/UX Design, Agile Development, Data Visualisation

Experience

CO-LEAD | MONASH NEXUS FOR EMERGING TECHNOLOGIES (MNET)

2024 - 2025

Leadership · Event Management · Project Management · Emerging Technologies

- Co-led a 30+ member student technology organisation focused on VR, digital twins, and emerging technologies.
- Organised and executed tech events and workshops, connecting students with industry partners.
- Contributed to team rebranding, improving visibility and engagement across platforms.

CODING & MATHS COACH | SKILLS SAMURAI (ELSTERNWICK & GLEN WAVERLEY)

2025 - Present

Python · Java · Teaching · Communication · Problem Solving

- Delivered coding and STEM lessons (Python, Java, Scratch, Lua) to students aged 6–16, adapting teaching strategies to different skill levels.
- Improved student engagement through interactive activities and structured lesson planning.
- Communicated student progress with parents, supporting retention and learning outcomes.

ESPORTS COMMENTATOR & EVENT HOST | ARDENT (TIER ONE) & FREELANCE

2021 - 2024

Data Analysis · Communication · Public Speaking · Stakeholder Engagement

- Delivered live analytical commentary for 40+ esports events (15+ international), interpreting in-game data and player trends in real time.
- Processed high volumes of fast-changing data under time pressure to generate insights and predictions, translating complex scenarios into clear explanations.
- Reached audiences of 10k–30k viewers per stream and collaborated with major organisations.

CULTURAL AFFAIRS OFFICER | FILIPINO ASSOCIATION MONASH

2025 - Present

Leadership · Community Engagement · Event Coordination

- Founding member of a student cultural organisation, contributing to its establishment and growth.
- Leading a student cultural organisation, growing membership and engagement through events and community initiatives.
- Supported student engagement and inclusivity through events and community initiatives.

Education

Monash University

2024 – Present

Bachelor of Information Technology (Software Development)

- Completed core Computer Science units including algorithms, data structures, databases, and object-oriented programming.
- Developed applications across web, mobile (Kotlin), and game development (C++, Unreal Engine).
- Built strong foundations in problem solving, software design, and full stack development.

Zuitt Intensive Coding Bootcamp

2023

Full Stack Web Development

- Built and deployed full stack web applications using MongoDB, Express, React, and Node.js on AWS

Projects

PERSONAL PORTFOLIO WEBSITE

[View code](#) | [View project](#)

React · Vite · Tailwind CSS · TypeScript

- Designed and developed a personal portfolio website to showcase projects and technical skills.
- Built reusable UI components and structured layouts using modern frontend frameworks.
- Optimised for performance and accessibility across devices.

FULL STACK E-COMMERCE WEBSITE

[View code](#) | [View Project](#)

React · JavaScript · REST API · UI Development

- Developed a responsive e-commerce web application with dynamic product rendering and API integration.
- Implemented client-side state management and interactive UI components to improve user experience.

TO-DO LIST APPLICATION

[View code](#) | [View Project](#)

React · TypeScript · Tailwind CSS

- Built a task management application with interactive UI and dynamic state updates.
- Implemented component-based design and user-friendly task interactions.

FLAPPY BIRD (FUNCTIONAL PROGRAMMING)

TypeScript · Functional Programming

- Developed a game using functional programming principles, focusing on immutability and state transformations.
